RELEVANT EXPERIENCE

Craftturf
Lagos, Nigeria
Senior Frontend Engineer
May. 2022

- Played a pivotal role as a senior front-end engineer in the development of Berry Health, an exceptional telemedicine application.
- Led the successful migration of the internal frontend framework, boosting development efficiency and speed.
- Transform product design into engaging web applications, ensuring seamless user experiences.
- Collaborate on architectural designs, optimizing performance, scalability, and maintainability.
- Understand stakeholders' needs, assess technical requirements, and align development efforts accordingly.
- Manage diverse frontend tasks, including UI development, performance optimization, code review, and maintenance.

WeDevelopers
Lagos, Nigeria
Full-Stack Engineer
Jun. 2021 - May 2022

- Successfully integrated automation into the organization's workflow, resulting in significant improvements in turnover and efficiency.
- Led the development of OneConverse, a user-friendly web app for seamless access to translation and interpretation services, as the Lead Software Engineer.
- Train and mentor junior software engineers, fostering their growth and skills development.
- Evaluate organization needs and deliver optimal technical solutions to meet business objectives.
- Conduct code reviews and engage in pair programming with fellow developers to ensure code quality.

Beam Agency
Lagos, Nigeria
Software Engineer
Dec. 2018 - Jun. 2021

- Conduct in-depth research on emerging technologies to meet specific technical requirements and drive innovation.
- Identify and implement performance enhancements to optimize the speed and efficiency of our web solutions.
- Write scalable and maintainable code for a variety of high-performing applications, ensuring optimal performance and reliability.
- Collaborate in code reviews and actively engage in pair programming to enhance code quality and team collaboration.
